ABOUT HAWKS IN BUSINESS

OPPORTUNITIES THAT TAKE FLIGHT

Hawks in Business has been specifically created with the sole purpose of connecting like minded individuals within our business community, in order to develop relationships, educate our partners on the business of sport as well as providing the platform for building genuine opportunities.

The industries are wide and varied with a love of sport at their core.

Taking into account the broad reach of our supporter base, and so that we can be as inclusive as possible, we are offering two location based chapters; one in Wollongong and another in Sydney. With dual locations, we have the ability to not only broaden your business network, but build a far reaching scope for opportunity in the process.

By becoming a member, you will be entitled to attend VIP events, specialised awards nights and inner-sanctum game day experiences.

“As a business leader, I believe HAWKS IN BUSINESS to be a unique opportunity for both the established and budding businessperson alike.

Our stated purpose is to establish a network of compatible individuals and organisations that reaches from the Illawarra to Sydney. As a member you will have the power of the whole community behind you.

Networking at all stages of our careers is invaluable but it is especially valuable for those starting out on their journey. I believe that membership of H.I.B. also provides a relaxed and enjoyable environment with many additional benefits for those who are as passionate about sport as they are business.

As a business leader, I have striven to imbue the qualities of excellence and value in all that I do. Also, I know the true value of inspirational leadership and strength in business. Success breeds success and our focus is putting the right pieces in place to achieve this. So, join us today and let H.I.B. show you the way.”
